AMENDMENT

S I R:

In response to the Office Action of February 7, 2003, kindly amend the above-captioned application as follows:

IN THE CLAIMS:

Please amend claims 39 and 45, without prejudice, as follows:

39. (Twice Amended) A method of indirectly determining motor oil quality, comprising the steps of:

01) determining a viscosity of the motor oil during operation of an internal combustion engine; and

indirectly determining and evaluating a change of the viscosity of the motor oil determined in the viscosity determining step as a function of a temperature and frictional torque of the internal combustion engine.

02) 45. (Amended) A method of indirectly determining viscosity of motor oil of an internal combustion engine, comprising the steps of:

determining an engine frictional torque; and

indirectly determining the viscosity of the motor oil in accordance with the engine frictional torque.
